Safety is our #1 priority. We have some exciting news at Keith!

Security fencing is an important component of CFISD's Safety and Security Measures. Installation is currently underway at 11 district campuses with more installations scheduled for the near future.

Over the years, we listened to many community members who expressed concerns about the accessibility of playgrounds and portable buildings to unauthorized visitors. When the 2019 Bond referendum passed in May, the district made installation of security fencing a priority district project. CFISD's security fences will have card-access gates that will be locked during school days. These gates will be unlocked after school hours and on non-school days to allow the community access to playgrounds when school is not in session. The safety and security of our students and staff far outweigh any inconveniences that the public may incur.

More about campus security fencing can be found in the brief video at <https://youtu.be/a35HmNw4omQ>.

Thank you for your continued trust in us as we work diligently to ensure our schools offer the safest possible learning environment. Learn more about campus security fencing at [www.cfisd.net/safety](http://www.cfisd.net/safety).
